1 {"reviewerID": "A3EBHHCZO6V2A4", "asin": "5555991584", "reviewerName": "Amaranth \"music fan\"", "helpful": [3, 3], "reviewText": "It's hard to believe \"Memory of Trees\" came out 11 years ago; it has held up well over the passage of time. It's Enya's last great album before the New Age/pop of \"Amarantine\" and \"Day without rain.\" Back in 1995, Enya still had her creative spark, her own voice. I agree with the reviewer who said that this is her saddest album; it is melancholy, bittersweet, from the opening title song. \"Memory of Trees\" is elegaic&majestic.; \"Pax Deorum\" sounds like it is from a Requiem Mass, it is a dark threnody. Unlike the reviewer who said that this has a \"disconcerting\" blend of spirituality&sensuality;, I don't find it disconcerting at all. \"Anywhere is\" is a hopeful song, looking to possibilities. \"Hope has a place\" is about love, but it is up to the listener to decide if it is romantic, platonic, etc. I've always had a soft spot for this song. \"On my way home\" is a triumphant ending about return. This is truly a masterpiece of New Age music, a must for any Enya fan!", "overall": 5.0, "summary": "Enya's last great album", "unixReviewTime": 1158019200, "reviewTime": "09 12, 2006"}  
2 {"reviewerID": "AZPWAXJG90JXV", "asin": "5555991584", "reviewerName": "bethtxas", "helpful": [0, 0], "reviewText": "A clasically-styled and introverted album, Memory of Trees is a masterpiece of subtlety. Many of the songs have an endearing shyness to them - soft piano and a lovely, quiet voice. But within every introvert is an inferno, and Enya lets that fire explode on a couple of songs that absolutely burst with an expected raw power. If you've never heard Enya before, you might want to start with one of her more popularized works, like Watermark, just to play it safe. But if you're already a fan, then your collection is not complete without this beautiful work of musical art.", "overall": 5.0, "summary": "Enya at her most elegant", "unixReviewTime": 991526400, "reviewTime": "06 3, 2001"}  
3 {"reviewerID": "A38IRLOX2T4DPF", "asin": "5555991584", "reviewerName": "bob turnley", "helpful": [2, 2], "reviewText": "I never thought Enya would reach the sublime heights of Evacuee or Marble Halls from 'Shepherd Moons.' 'The Celts, Watermark and Day...' were all pleasant and admirable throughout, but are less ambitious both lyrically and musically. But Hope Has a Place from 'Memory...' reaches those heights and beyond. It is Enya at her most inspirational and comforting. I'm actually glad that this song didn't get overexposed the way Only Time did. It makes it that much more special to all who own this album.", "overall": 5.0, "summary": "The best so far", "unixReviewTime": 1058140800, "reviewTime": "07 14, 2003"}  
4 {"reviewerID": "A22IK3I6U76GX0", "asin": "5555991584", "reviewerName": "Calle", "helpful": [1, 1], "reviewText": "This is the third review of an irish album I write today (the others were Cranberries) and now I'm sure about that Ireland is one of the countries producing the best music in the world. And not just commercial pop-music in the Spice Girls way. Okay, I just wanted to say something about Irish music. Now let's say something about this album. It's great. it's beautiful. Very good, easy listened music. If you like Enya or you just want some easy-listened relaxing music. This is the album for you to buy!", "overall": 5.0, "summary": "Ireland produces good music.", "unixReviewTime": 957312000, "reviewTime": "05 3, 2000"}  
5 {"reviewerID": "A1AISPOIIHTHXX", "asin": "5555991584", "reviewerName": "Cloud \"...\"", "helpful": [1, 1], "reviewText": "Enya, despite being a successful recording artist, doesn't have the broad appeal as other artists; one reason might be that her kind of music is not very pop station friendly while another reason could be people think they're too \"macho\" for music that she makes. But people with open minds could find there's some beautiful melodies and harmonies as well as lively upbeat tunes that"},

The screenshot shows the PyCharm IDE interface with the project 'EWA_Amazon' open. The left sidebar displays the project structure, including a 'ewa' package containing 'spiders', 'items.py', 'middlewares.py', 'pipelines.py', and 'settings.py'. The file 'books.json' is selected and highlighted with a blue bar at the bottom of the sidebar. The main editor window shows the JSON data for scraped products:
